

Timber Front Doors

Create individuality for your home

Would you like something different to the ordinary?

Huke Ltd

FIRST IMPRESSIONS COUNT - give the right ones

Our hardwood solid timber entrance doors are crafted to order, allowing us to make sizes and designs to your measurements. They come with industry leading warranties and guarantees and have been extensively tested to provide high quality coupled with excellent performance and they can be matched to our casement windows range.

TOTAL FACTORY APPLIED PROTECTION

COLOURS & WOOD STAINS:

At Huke you can choose from a wide range of colours and finishes and we will spray paint your chosen doors with 3 coats of high quality paint before installation. That ensures that comprehensive finish is applied all over giving you the desired aesthetics when installed.

- a unique, patented and environmentally friendly process,
- extremely durable against impact, scratches and abrasion
- water based paint (no solvents)
- we can match Farrow&Ball colour range
- 200 RAL colour finishes and stains to choose from
- 10 year warranty

KEY FEATURES

- exceptional weather, security and thermal performance
- toughened glass with the option of solid design panels
- HERITAGE AUTOMATIC Multi-Point Locking systems for increased security
- broad range of hardware, handles, letterboxes, knockers, door numbers
- high performance, factory applied coatings
- designed for long life and low maintenance

HIGH PERFORMANCE FSC® PURE HARDWOOD TIMBER

Our timber combines high grade quality and structural stability:

- Responsibly sourced Red Grandis – a plantation-grown FSC Pure, knot free, uniform, free from natural defects with stress-free straight grain
- Durable and fungi resistant – independently tested in the UK by TRADA Technology achieving Durability Class 2-3
- Structurally tested – BRE tests also prove D35 structural properties and C36 density
- Excellent consistency in colour, appearance, evenness of grain and workability

We are, as well, a trained user of ACCOYA® wood - a high technology wood which is more durable than teak, redwood or hardwood.

The mark of
responsible forestry
